Introduction

- 1. This Statistical Report accompanies the Regulatory Decision-Making Annual Report for 2020/21 and presents the statistical data collected between 1 April 2020 and 31 March 2021 concerning the new applications and reports that we received, the caseload that we worked on throughout the year, the outcomes of this work, and the quality assurance work carried out by the Independent Reviewer. This data was extracted from our Case Management System in June/July 2021. Where possible, figures for 2019/20 are also provided for comparison.
- 2. The Bar Standards Board's Authorisation Team is responsible for dealing with applications for waivers and exemptions from our practising requirements. The team also deals with the authorisation of Approved Education and Training Organisations, Alternative Business Structures and Entities.
- 3. The Bar Standards Board publishes a Handbook with which barristers comply. Where there is evidence that the Handbook has been breached, the BSB will consider what action may be necessary by way of enforcement or otherwise. The work of enforcing the Handbook is carried out by the Contact and Assessment Team, Investigation and Enforcement Team, and the Independent Decision-making Body of the BSB. We assess reports, investigate allegations and, where appropriate, take action against barristers who have breached their professional obligations as set out in the Handbook.
